Qwest is in the process of requesting regulatory authorization in AZ, CO, ID, IA, MN, MT, NE, NM, ND, OR, SD, UT, WA, and WY to provide interLATA long distance service originating; interLATA 8XX service terminating; or interLATA private line or data circuits with either end in these states, and Internet services without a required Global Service Provider (GSP). These services will not be available until regulatory authorization is received relating to each state.
